

BEARING SALES EXPERTS

Developing and selling high-9 years quality bearings throughout Russia

Located in Naberezhnye Chelny, Republic of Tatarstan, which is an industrial center in the field of mechanical engineering

30 000 Bearing assortment for all industries

Contract manufacturing in the People's Republic of China under its own brand

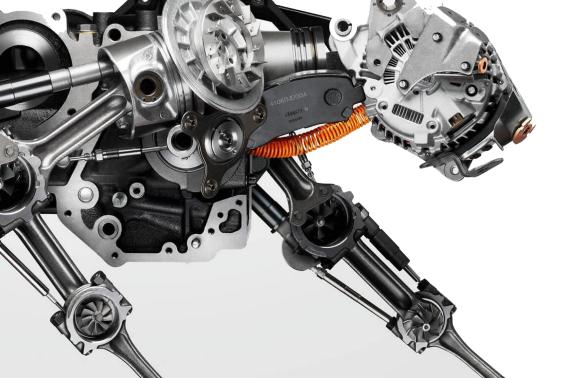

Own storage facilities

Engineering center and laboratory for development and testing

Own transport and logistics company

FOUNDER AND OWNER OF DALINI

Ruslan Nigmatulin

Deputy of the State Council of the sixth convocation. Chairman of the Regional Branch of the "Party of Growth" in the Republic of Tatarstan.

Member of the All-Russian People's Front

Member of the Board of the Industrial Cluster of the Republic of Tatarstan

Awards:

Letter of commendation from the Head of the Executive Committee of Naberezhnye Chelny for diligent work and great contribution to the development of the machine-building industry.

Winner of the city contest "Entrepreneur of the Year" in the category "Business Person". Laureate of the national contest "Kind Tatarstan" in the category "Responsible Business".

Winner of the "Volunteer Calling" contest in the "Corporate Volunteering" category.

OUR PARTNERS

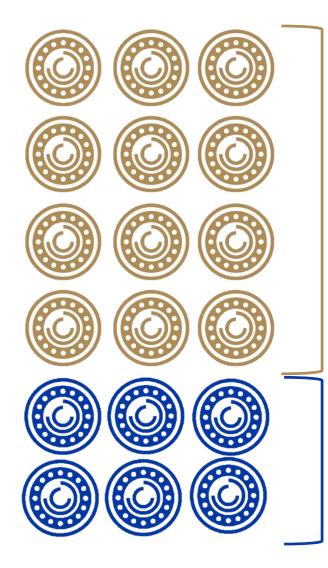

We collaborate with the largest manufacturers in Russia:

aluminum products

Truck manufacturer	KAMAZ
Oil company	TATNEFT
Industrial group	набережночелнинский трубный завод
Manufacture of construction fittings	CTH"
Production of synthetic rubbers and plastics	нижнекамскнефтехим
Manufacturer of agricultural machinery, planting complexes, tractors	AGROMASTER
Battery manufacturer	ЕАЗ_ ЕЛАБУЖСКИЙ АККУМУЛАТОРНЫЙ ВАВОЛ
Agricultural producer	АГРОСИЛА холдинг
ZF Transmission manufacturers	KAMA
Manufacturer of architectural systems and	TATEROOF

ΤΑΤΠΡΟΦ

RUSSIAN MARKET

Bearings are supplied to Russia from abroad

32% Localized by Russian manufacturers

Over 50% of companies in Russia experience a shortage of bearing supply, leading to equipment downtime.

SKF, Timken, Schaeffler, NSK have left the Russian market.

OUR GOAL

Localization of bearing production in the Russian Federation.

Republic of Tatarstan

- fifth place in industrial production in Russia;
- center of a major industrial region of Russia

The first stage of mastering production:

Tapered roller bearings

Radial needle roller bearings

PROJECT STAGES

STEP #1.

Searching for a co-production partner

STEP #2.
Product development

STEP #3.

Production engineering and construction

Investments: \$10.8 mln.

Production volume: 2.5 mln. units per year.

Period of realization: 3 years.

Payback period: 6 years.

SUPPORT OF THE PROJECT

Head of the Republic of Tatarstan Rustam Nurgaliyevich Minnikhanov personally supported the project to build a bearing factory in Naberezhnye Chelny

О заинтересованности в сотрудничестве

Уважаемый Руслан Рависович,

В ответ на Ваше письмо (исх.№88 от 29.11.2022) выражаем глубокую заинтересованность в локальном поставщике подшинниковых деталей для коробок передач Ecomid, Ecosplit и Ecosplit Long. Сообщаем, что основной проблемой в работе с текущими азиатскими поставщиками является длительной срок поставки товара.

Просим Вашего понимания что ООО «ЦФ КАМА» не обладает достаточными компетенциями для оказания консультаций касательно контроля и повышения качества производимых подшипников на будущем заводе и рекомендуем обратиться в НТЦ ПАО «КАМАЗ» для обсуждения вопроса экспертной информационной поддержки производственных процессов.

С уважением,

000 «ЦФ КАМА»

М.Г. Закиев Директор по развитию

TODAY'S PROJECT

A trial batch of 7610 bearings was produced through the cooperation of three production enterprises of the Republic of Tatarstan.

A metallographic analysis was performed.

Лаборатория металлографического и спектрального анализа

Протокол металлографического анализа №27С

от 21.02.2023 г.

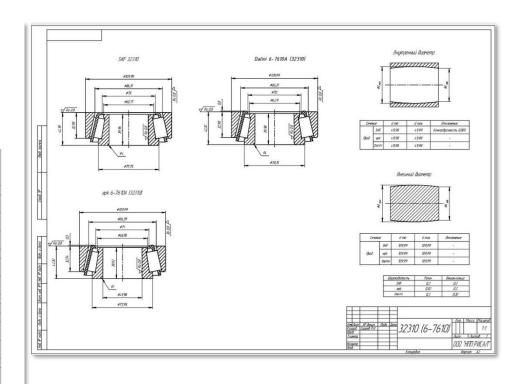

Заказчик: ООО Торговый Дом «Далини»
